

FOAM APPLICATOR / PEN

Our new foam applicator is a great addition to our Premium and Classik Touch Up pen. It was created in order to offer the user the best technology to create the best touch up possible.

The applicator provides a second method of application and also makes it easier to do touch ups to those difficult to apply places.

INSTRUCTIONS USING METAL OR PLASTIC TIP

1. Thoroughly clean surface before using;
2. Shake vigorously for 1 minute;
3. Make a test line of at least 2 cm on a piece of paper;
4. Squeeze pen firmly during use;
5. Let dry 20 Minutes and keep away from dust;
6. Wipe the tip after each use.

INSTRUCTIONS USING FOAM APPLICATOR

1. Thoroughly clean surface before using;
